

Agents have been given the reins in determining which email communications they want to receive from Homesnap. In addition, we introduced an expanded and detailed notification preference page, where Homesnap Pro users can opt into or out of email and push notifications. This preference page covers the different categories of emails and notifications that Homesnap sends on a regular basis and allows agents to choose the types of messages they want to receive and how often they want to receive them.

The notification preference page can be found by clicking "unsubscribe" at the bottom of any email from Homesnap or via the Me tab in the Homesnap Pro app or website.

If you want to be unsubscribed from other homesnap emails, you can do so in your notification settings using the below instructions.

### **On the App:**

- Click on the ME Icon
- Click on the Settings icon ( gear/cog) at the top of the app
- Click on notifications
- Here you can opt-in/out of the types of notifications you wish to receive from homesnap

### **On the Web:**

- Click on Me
- Scroll down and choose notifications
- Here you can opt-in/out of the types of notifications you wish to receive from homesnap
- Make sure to click Save Changes at the bottom

### **Edit Profile Settings Video**
